Fact Sheet
2026

Keyla offers a slower, more graceful way of living the Mediterranean life. Mornings begin with the calm of the shore and the distant sound of the Düden waterfall, which has flowed along this coast for thousands of years. Evenings stretch into the golden sunset. Set on a coast that has been a meeting point for cultures and travelers for millennia, Keyla brings together the natural warmth of this land with its private beach and its rooftop, inviting guests into the rhythm of the coast.

Keyla is where you remember that the things that matter most in life are often the quietest. The stillness of a morning, the comfort of knowing the sea is always near, a small gesture offered before you even ask for it.

Open all twelve months of the year, Keyla is a doorway for those who wish to discover Antalya's ancient cities, open coastline, and natural beauty, and an invitation for those who wish to slow down, rest, and reconnect.

# Wellness & Water

Water is a healer. The rhythm of the Mediterranean, the sound of waves meeting the shore, and the waters of the Düden Waterfall have shaped a sense of calm for thousands of years. At Keyla, wellness is not a program but a natural part of the experience. Some mornings begin with yoga as the sun rises. Others with swimming, coastal walks, cycling, hiking, or a session in our fitness studio. Then you return to the water—our heated pool, the sea, a paddleboard, or a boat along the coast. When the body asks for more, our spa is there. Personalized rituals, restorative massages, and wellness treatments help release tension, restore balance, and create a deep sense of calm.

At Keyla, wellness is not a goal. It is simply the natural way of feeling well. Water is healing, water is beauty, and staying at Keyla is that experience itself.
